10	19820826	16	Stabilising device for a remotely adjustable vehicle outside rear view mirror	DE 3104905 A1		359/872

	Issue Date	Pages	Title	Document ID	Current OR	Current XRef
11	20020629	10	Rear view mirror comprises case with peripheral frame and mirror which fits into it which is attached to bar in the case by stirrup, to which it is screwed, and which has hook which fits through aperture in frame	EP 1216883 A		
12	20020306	14	Optical imaging system for use in vehicles, has camera head positioned and concealed inside external rear view mirror case, that provides through two-way mirror an additional wide angle rearward vision	GB 2366267 A		
13	19971014	5	Receiver apparatus in keyless entry system for door lock of vehicles - includes receiving circuit, code matching circuit and output circuit formed in circuit substrate provided in accommodation space formed behind mirror in rear view mirror case	JP 09268818 A		
14	19960703	22	Vehicle instrumentation and/or console lighting assembly - incorporates light assemblies into rear view mirror case with light emitted through lower edge of case	EP 719674 A		

	Issue Date	Pages	Title	Document ID	Current OR	Current XRef
15	19960312	7	Rear view mirror assembly circuit for motor vehicle - has side lamp hole at outer lateral side of mirror and wire hole through mounting support, while front lamp is mounted in back lamp hole and electrically connected to headlamps	US 5499169 A		
16	19941108	9	Motor vehicle rear view mirror wiper device - includes rear view mirror case connected to body of car by contracting member and having slide holder mounted on it to hold lens	US 5363236 A		
17	19920703	10	Rear-view mirror case and mounting assembly - incorporates position maintaining spring with guide ribs forming part of second frame element linked to base	FR 2671036 A		
18	19750401	6	Rear view mirror for car interior - wall of plastic case is spaced from mirror edge to allow for expansion	US 3874773 A
